- Max Flow rate for each rain function: 2.5 gpm
- Flow rate at a flow pressure of 3 bar with xTOOL: 10.3 gpm
- minimum working pressure = 29 Psi
- maximum working pressure = 58 Psi
- Weight: 27 lbs

## Technical data:

## Plumbing:

- Water softening device recommended
- For choosing the drainage, taking into consideration the output of items in the shower, the specific demand needs to be assessed.
- Supply line (hot/cold): 2 x 3/4"
- An individual determination of requirements is required to select the optimum device for the hot water tank, taking into account additional tapping points and the frequency of use for the BigRain.
- This product can help a building meet the requirements of Green Building Rating Systems, e.g. LEED®, BREEAM®, DGNB

Please refer to Planning Guide for proper sizing and installation methods

To meet the North American plumbing standards, this application must be installed with a diverter (35 203 970-900010, 3-way diverter rough included and required for more restricted states).
